- Extended Scheduled Breaks** - Breaks are offered between testlets. All candidates have an opportunity to take a break between testlets to use the restroom or access food/water. The exam clock continues to run down during a break. A break monitor is not required because the candidate cannot return to previously viewed exam content after returning for an extended break. There are three options for Extended Scheduled Breaks:
 - One (1) Hour Lunch Break:** The exam clock stops for up to one hour during a regularly scheduled break, allowing the candidate to break for a meal.
 - Two (2) Extended 45-Minute Scheduled Breaks:** The candidate is permitted to take two breaks of up to 45 minutes each, off-the-clock, during two of the three regularly scheduled breaks between testlets.
 - Three (3) Extended 30-Minute Scheduled Breaks:** The candidate is permitted to take three breaks of up to 30 minutes each, off-the-clock, during each of the three regularly scheduled breaks.

- Additional Testing Time** - Candidates have the three (3) Extended Time options. The table on the next page details the amount of time that is allocated for each exam under these options.
 - Time and a quarter**
 - Time and a half**
 - Double time**
