

TSBPA Professional Contracts FY 2026

TSBPA is required to post a contract management guide establishing consistent contracting policies and practices to be followed by the agency that is consistent with the Comptroller's Texas Procurement and Contract Management Guide. TSBPA's Procurement and Contract Management Guide (PDF) is posted pursuant to Government Code Section 2261.256.

In accordance with state law, the TSBPA seeks proposals before awarding contracts. In addition, state law provides that state agencies may enter into certain contracts under programs where the process takes place at the state level, rather than the agency level, to promote efficiency in contracting and to take advantage of the state's purchasing power. Procurements with a value of less than \$10,000 do not require a Request for Qualifications.

Contract #	Contract Name	Scope	Not to Exceed	Reimbursable Expenses Not To Exceed
